EDUCATION

BACHELORS OF SCIENCE

Digital Media
University of the West of England
2013 - 2016
First Class Honours

FOUNDATION YEAR

Computing
University of the West of England
2012
Result: First

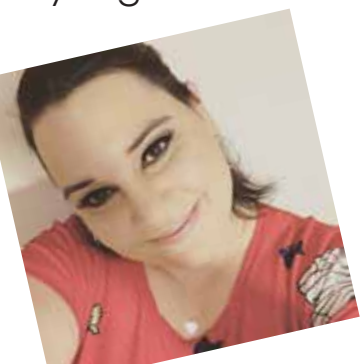

TECHNICAL SKILLS

HTML 5 / PHP / Python /
Wordpress / AJAX / JavaScript /
CSS 3 / SQL / XML

Microsoft Office / Maya
Adobe Illustrator / Unity
Adobe Photoshop / Adobe
Premiere Pro / Adobe InDesign /
iOS & Android Development

INTERESTS & HOBBIES

Knitting / Crochet / My children /
Scrapbooking / Reading /
Coding / World of Warcraft /
Movies & TV shows / Working
my dogs

KEY SKILLS

PROGRAMMING

As part of my degree course, including the Foundation Year, I have used many coding languages extensively including C, HTML5, CSS3. During the second year, I have also started using XML, PHP and JavaScript. Examples of code that I have written can be found on my repositories on GitHub and were all assignments for my degree. I achieved a First for all of these projects and further information on these can also be found on my website.

PROBLEM SOLVING

As a programmer, I have a lot of experience of problem solving as a big part of coding is learning to solve puzzles and fix problems. A recent example of when I have had to solve a problem is in the website I created for the Web Design Principles module in my Second Year. I applied a parallax effect for my background and used Firefox to design the site. However, when I tested the site using Chrome, the parallax effect did not work due to Chrome not supporting a vital attribute in the CSS. I researched this issue and found several reported solutions which I tried until one of them worked. As a result, the website now works in Chrome and Firefox, which can be viewed on my website.

WORK EXPERIENCE

CONSULTANT & TEAM DEVELOPER / SLIMMING WORLD

{November 2010 – July 2013}

Running my own groups as a Slimming World consultant, supporting over 100 members on a weekly basis. On becoming a Team Developer in November 2012, I also supported a team of six consultants who brought an additional ten groups and 600 members under my management.

Achieved a Ruby award for welcoming 40 new members in one night to an opening group in April 2011. Achieved a Diamond award for welcoming more than 60 new members to my group in January 2012. Was awarded a Silver award in January 2012 for maintaining over 100 members on each week for the month

RECRUITMENT ASSISTANT / NHS BLOOD & TRANSPORT

{APRIL 2001 - JULY 2011}

Working within a team to recruit staff for NHSBT which included processing applications and to organise interviews for centres all over England and North Wales, as well as other administrative duties.

Was given an "acting up" position for a year into a Senior Recruitment Assistant to cover maternity leave
